

Theorem 0.1 (Inspired by Amber Fish)

All classes at Georgia Tech are stupidly trivial.

Even Linear Algebra 1 & 2.

Even Complex Analysis.

Even Abstract Algebra.

Even Real Analysis.

Even Graph Theory.

Even Information Theory.

Even CS 2110.

Even CS 3210.

Even CS 3511.

Even CS 4240.

Even Deep Learning.

Having ≤ 21 credits is trivial!

Thus, you got this in the bag!
